

MCAA SEA Chapter – Country Representative MALAYSIA

Dr. Mohd Mustafa Al Bakri Abdullah

Nationality: Malaysian

My current place of work: Center of Excellence Geopolymer and Green Technology (CEGeoGTech), Universiti Malaysia Perlis (UniMAP), Malaysia

My research expertise and interests:

- Studies on based Geopolymer as a composite materials
- Materials characterization of engineering materials
- Construction Material Technology

My Marie Curie Experience:

BIL	RESEARCH TITLE	TYPE OF GRANT	DURATION	TYPE
1.	Partnership for Research in Geopolymer Concrete (PRiGeoC-689857)	European Commission REA via Marie Skłodowska-Curie Research and Innovation Staff Exchange programme	June 2015 – June 2020	Partner Coordinator – University of Plymouth (UoP) UK

My offer to other researchers:

As Marie Curie Fellow, I am keen to support fellow researchers in the following areas:

- 1- Allowing researcher to do an attachment at other universities.
- 2- Raise the capability of the researcher to improve the skills in managing research towards competitive and innovative research.
- 3- Provide a laboratory materials, equipment and apparatus for research findings/progress.
- 4- Give new experience in research environment, culture exchange and knowledge transfer during the student mobility.

MARIE CURIE ALUMNI ASSOCIATION

My Marie Curie Experience In A Nutshell:

Marie Curie have given me a great opportunity to broaden my knowledge and experience towards research collaborations and visibility. Even sometimes it was considered as very tough environment to travel around the world to meet other great researchers, but I take it as a challenge. I also have found Marie Curie helps me to bring up my research ideas to the international space.
