your connection
with European research

What is EURAXESS?

EURAXESS is a unique pan-European initiative which delivers information and support services to professional researchers. Backed by the European Union and its Member States, it aims to support researcher mobility and career development while enhancing scientific collaboration between Europe and the world.

Research and
Innovation

Connecting European researchers to the world

EURAXESS Links is a **networking service** that connects European researchers with other parts of the world. It provides opportunities for **international collaboration** and **career mobility**.

A growing network

Links currently has a presence in Brazil, China, India, Japan, North-America and four countries in the ASEAN region – namely Indonesia, Malaysia, Singapore and Thailand.

Supporting the European researcher

EURAXESS Links can help you collaborate with colleagues in Europe and abroad, look for your next career move, and boost your networking opportunities.

A range of **free services** is available for **Links members**, including:

- ▶ A **website** packed with information on research funding, career opportunities, conferences and training courses;
- ▶ An **electronic newsletter** with details about calls for proposals, policy developments, jobs and opportunities for project partnerships;
- ▶ Regular **meetings and events** for networking;
- ▶ A **virtual 'bulletin board'** where you can post information.

EURAXESS Links Regional Representatives – your local resource

You can find Links Regional Representatives in every EURAXESS Links region and country. They provide personalised assistance to European and non-European researchers like you who want to benefit from the EURAXESS Links support.

Links Regional Representatives also act as 'ambassadors' for European research in the local community by encouraging collaboration and exchanges of information.

Find your local Representative at: links.euraxess.org

Supporting the non-European researcher

EURAXESS Links can help you look for jobs and collaborative opportunities across Europe. The Links team can also assist you should you choose to relocate to Europe for work or a fellowship.

EURAXESS has a **jobs portal** which lists thousands of vacancies for researchers in a variety of fields. If you choose to make the move, trained and experienced EURAXESS staff are on-hand to provide **free, practical support** with issues such as **work visas** and **residency permits**. They can also help with more personal needs including finding **accommodation**.

And you can access all the EURAXESS services, just like your European counterparts.
